

Contents

Editorial

- 2** Adverse event reporting systems and safer healthcare *J B Battles, D P Stevens*

Commentary

- 3** Who do we blame when it all goes wrong? *K Catchpole*

Error management

- 5** Trends in healthcare incident reporting and relationship to safety and quality data in acute hospitals: results from the National Reporting and Learning System *A Hutchinson, T A Young, K L Cooper, A McIntosh, J D Karnon, S Scobie, R G Thomson*
- 11** Feedback from incident reporting: information and action to improve patient safety *J Benn, M Koutantji, L Wallace, P Spurgeon, M Rejman, A Healey, C Vincent*
- 22** Medication errors: the impact of prescribing and transcribing errors on preventable harm in hospitalised patients *J E van Doormaal, P M L A van den Bemt, P G M Mol, R J Zaal, A C G Egberts, F M Haaijer-Ruskamp, J G W Kosterink*
- 28** Development of the Pharmacy Safety Climate Questionnaire: a principal components analysis *D M Ashcroft, D Parker*
- 32** Prescribing discrepancies likely to cause adverse drug events after patient transfer *K S Boockvar, S Liu, N Goldstein, J Nebeker, A Siu, T Fried*

Original articles

- 37** Towards safer, better healthcare: harnessing the natural properties of complex sociotechnical systems *J Braithwaite, W B Runciman, A F Merry*

February 2009 Vol 18 No 1

- 42** "Choice" and place of delivery: a qualitative study of women in remote and rural Scotland *E Pitchforth, E van Teijlingen, V Watson, J Tucker, A Kiger, J Ireland, J Farmer, A-M Rennie, S Gibb, E Thomson, M Ryan*
- 49** Implementation strategies influence the structure, process and outcome of quality systems: an empirical study of hospital departments in Sweden *S Kunkel, U Rosenqvist, R Westerling*
- 55** A pilot study testing a medication algorithm to reduce polypharmacy *L A Mistler, T A Mellman, R E Drake*
- 59** Audit of the consultation process on general internal medicine services *J Conley, M Jordan, W A Ghali*

Education and training

- 63** Beyond "see one, do one, teach one": toward a different training paradigm *J M Rodriguez-Paz, M Kennedy, E Salas, A W Wu, J B Sexton, E A Hunt, P J Pronovost*

Organisational matters

- 69** Involuntary automaticity: a potential legal defence against an allegation of clinical negligence? *B Toft, P Gooderham*

Quality improvement report

- 74** A model for increasing patient safety in the intensive care unit: increasing the implementation rates of proven safety measures *W S Krinsky, I B Mroz, J K McIlwaine, S D Surgenor, D Christian, H L Corwin, D Houston, C Robison, N Malayaman*
- 80** Corrections
